

# Automatic data transfer to DealerTrack®

Tools to accelerate your business

## NO MORE DOUBLE DATA ENTRY

- Instant data transfer saves time, reduces errors and gives you more time with your customer to sell additional products
- Don't waste time and try your patience by painstakingly re-entering customer, vehicle and financial information into multiple systems
- Enter the deal in your normal deal screen with **Dealership Tracker**. Then press one button and verify the information and send it directly to DealerTrack® in seconds

**Submit An Application**

YOU HAVE SELECTED  
Vehicle / Product / Credit / Trade-In: New Retail Individual [Change]

CREDIT APPLICATION PRE-FILLED USING THE INTEGRATION MODULE

## FEATURES / BENEFITS

- Eliminate double data entry with full integration between **Dealership Tracker** and DealerTrack®
- Cut data entry errors with automatic data transfer
- Increase the efficiency of your F&I process and reduce delays for customers
- Spend valuable time selling more, not entering customer data over and over again

\* Pay for a full year and receive a *free* month! Annual price is just \$429. Pricing is per dealership, not per computer.

We also have direct integration to **RouteOne**, **CUDL** and with all three credit bureaus including **OFAC**, **Red Flag** and other buyer ID information.
