## The Dealership Tracker

## N.A.D.A.® Integration Now with Weekly Auction Values !!!

The **N.A.D.A.® Official Used Car Guide®** Company and **The Dealership Tracker** F&I system are now partnered to bring dealers direct easy access to N.A.D.A.® Official Used Car Guide® information and values. This will automatically update all vehicle valuations in your inventory plus giving you the option to look up values not in your inventory.

- This option can extract such information as: Year, Make, Model, Body Type and GVWR.
- Automatically update the following values for all of your in-stock vehicles by your Region:
  - **Trade** Base and Adjusted with Accessories
  - **Loan** Base and Adjusted with Accessories
  - **Retail** Base and Adjusted with Accessories
  - **Rough/Avg Trade** and Adj. with Accessories
  - **Weekly Auction** (Low, Average and High)
  - Mileage Adjustment, weight and MSRP
- There are **no limits** to the number of computers in your dealership this is used on, the number of valuations per month or any of the other normal limitations of your current e-Valuator® or other version of the N.A.D.A.® book.
- Print out a full **Book Out sheet** for a vehicle that shows all vehicle information and all the values and accessories selected. Even select which pricing column you want to print or not print.
- **There is no setup fee.** The low monthly subscription fee gives you full access to all the N.A.D.A.® Official Used Car Guide® information and values. Each months/weeks update is automatically installed on your computer(s) when you update *The Dealership Tracker*. **This option replaces your current e-Valuator® CD or N.A.D.A. subscription plus saves you lots of time!**
- Easily select any accessories for the vehicle and the system will automatically save your selections.
- Using this value-added integration solution with *The Dealership Tracker*, the N.A.D.A.® Official Used Car Guide® values transforms a cumbersome, time-consuming process into a seamless integrated book out solution, with significant benefits for your dealership.
- Quick access (Ctrl-N) to search for values for a vehicle not even in your inventory and then print a book out sheet.
- See all values for your sold or trade-in with just a single mouse click from your deal screen.
- Do a mass values update to all your in-stock inventory to apply the latest N.A.D.A.® values in seconds.
